3rd Year Class Representative Fall 2025 Semesterly Report

Regular Tasks:

- Send weekly updates to members of my cohort in regards to deadlines, APSA events, and other class specific information.
- Communicate with professors on behalf of members of my cohort, whenever applicable.
- Attend general counsel meetings and stay informed on events, should they need to be disseminated through my class discord.
- Attend SAC meetings and do course reviews as appropriate. This also involves communicating with faculty members.
- Communicate with external parties who wish to have presentations with my cohort. I am also tasked with organizing the events, requesting room booking, and disseminating invites.
- Have open communication with the other class representatives and APSA members to hear students' concerns with pharmacy school and if there are any elements which my role can remedy.
- Act as a representative for the APSA student body and be open to communication with the 2st and 2nd year cohorts when appropriate. Acting as a mentor or providing information as needed, depending on the query.
- Being the “go to” person for concerns, issues, information within my cohort
- Help inform the cohort on social events which are held by the social representative.
- Look into the students requests (this year: specific patagonia sweaters) and determine if they are feasible, and if so, act on them for the betterment of the 3rd year student body.
- Asking members of my cohort any issues they are experiencing with the content, lectures, or other factors. This equips me with accurate and a more well rounded understanding of the student bodies feelings, which I have to use when speaking to faculty (ex SAC meeting).
