

April 27, 2020

Jason Chiu, 4th Year Social Representative

2019/2020 Year End Officer Report

Throughout April and Summer

- Continued run club helped set up dates with polls
- Organized potlucks/party throughout the summer using my apartment's hall.
- Organized dates for movie night at my apartment's theatre room.
- Made a poll to gather information on what the class wants to do
 - o Ex. Hiking, Canoeing, K-Days, Color Me Rad 5K, Camping, Ice skating
 - o Created groups of each one after poll for people who were interested
 - o Found information of each event, such as date and cost, and communicated it to the class
- Help organize and inform dates of volleyball events at the Garneau Tennis and Beach Volleyball Club with classmates that had passes for it.

Throughout the Year

- Unfortunately, as I was in Calgary for all my rotations, I did not organize much during the year, but I did notify the class about this before I applied for the position.
- Responded to any questions or comments about events and tried to communicate with other social representatives and the VP social.
- Informed class of any events that are occurring within Pharmacy and invited class.
- Initiated and helped organize for the Blue and Gold performance.

December

- Made a poll and communicated class about the possibility of a Christmas party and timing. Unfortunately, turnout would've been 10-15 people, so I communicated with the 3rd year social representative and she said it was alright to combine/join their party instead.

Ongoing

- Communicated possible ideas on the Blue and Gold performance
- Kept up with social representative meetings through documents and communicating with the other social representatives and the VP Social in group chat.

- Did not use any funds for this semester and will most likely use them for the Blue & Gold performance video.
