What's your Role – Pharmacist

As a Pharmacist at Rexall, you'll ensure excellence in patient care, customer service, and operational efficiency. Your Patient focused responsibilities will include:

- Providing clinical services
- Offering professional advice on prescriptions and OTC products
- Managing inventory and accurate dispensing of prescriptions
- Maintaining compliance with pharmacy regulations and Rexall policies
- Engaging with patients to provide medication counseling & positive interactions
- Accurately and timely dispense prescriptions
- Perform patient focused services as deemed eligible and appropriate for the patients, including injections/immunizations
- Provide professional advice and applicable dialogue with patients on prescription and OTC products to provide excellent customer service and maximize customer loyalty
- Support accurate pricing and receiving procedures to minimize shrink in such areas as damaged goods, returns, internal and external theft
- Ensure compliance to company policies and procedures, professional standards and applicable laws and regulations
- Supporting the dispensary inventory level within the prescribed guidelines through accurate perpetual inventory records, including narcotics
- Maintenance of complete and accurate documentation as necessary by the various Colleges of Pharmacy, drugs plans (both public & private) as well as all Rexall programs and SOP's

Qualifications to succeed

- Licensed Pharmacist in Alberta
- Strong clinical knowledge and communication skills
- Ability to work independently and within a fast-paced team
- Commitment to professional standards and regulatory compliance
