6. Request to Increase Budget for Sports Representatives [Jenna, Bruce, and Zach] (10 mins)
 - a. Description: Ideally, we are hoping to find an additional ~ \$750.00, to allow for hockey, basketball, 2 x volleyball, and dodgeball (which we anticipate will be the sports with the biggest interest, based on this semester and previous years).
 - b. Notes: Looking to do some fundraising to make up the cost - t-shirt sale. Cut one team from the winter. For sports to run right now we would need \$750, or only \$170 if we cut 1 sport. Good interest in volleyball and basketball. We want to sign up for everything before it closes. Consequences for people who sign up for a team and don't show up - potential waitlist as consequence. Question on hockey registration - campus rec hockey is full and we are unable to get a team into that league (yearly registration) we are in a different league where we have semesterly registration.

Motion: To approve a budget increase for the Sports Representatives

First: Max, Second: Chase

 - a. Description: Goals - Provide an education standpoint about Indigenous health from a pharmacy perspective, Create an open and collaborative atmosphere for Indigenous and Non-Indigenous students in the faculty to explore the importance of Indigenous health, Have fun, potentially increase the number of indigenous student applicants into the program
 - b. Notes: Question on how they are structured and what supports they might need - answer that they have been receiving support from Trent at student services and that since it is being started by first year students they are in the preliminary stages and APSA will support them. Clarification question on if the Indigenous Pharmacy Students' Club will be an APSA affiliated club - confirmation that they are.

Motion: Be it resolved that the Indigenous Pharmacy Students' Club is approved as an APSA affiliated group with a tentative budget under discretion of VP Finance and President for the remainder of 2025-2026 APSA Council.
