

December 7, 2020

SAF-Pharm Director Fall 2020 Semester Report

- Met with a Diabetes Canada representative to discuss their organization's current goals and initiatives (Diabetes 360 strategy, D-Camps day camps for children)
- Began groundwork for a food bank volunteer opportunity for students in the Edmonton area (presented by a student from the Class of 2023)
 - Obtained demographic information from Faculty about where students are located to see whether it would be worthwhile to expand this initiative beyond Edmonton
 - Contacted Calgary Food Bank to find out about potential volunteer opportunities - this is unlikely to be feasible for students at this time as they currently require an ongoing weekly commitment
- Participated in CAPSI National Advocacy Committee meeting and discussions
 - Discussions this year are focused around developing a unified scope of practice for pharmacists across Canada
- Attended PAM Committee meeting and discussions
- Held meetings and discussions with the SAF-Pharm Committee about direction for this year
 - Advocacy (conversation about what impact pharmacy students can have)
 - Trade Show (discussions about webinar format, vendors, participation incentives)
 - Health promotion activities (e.g. developing patient resources)
- Had meetings with a GSK Pharmaceuticals representative and organized two Lunch & Learns for the Winter 2021 semester

Respectfully Submitted,

Monica Choy, SAF-Pharm Director
Alberta Pharmacy Students' Association
