
Councilor Report: Anna Jutla, SAF-Pharm Director

Fall 2019

APSA Industry Trade Show—Planning Phase

- The Industry Trade Show helps to actively promote the importance of keeping up-to-date with pharmaceutical products available to us
- The Committee focused their time on contacting different pharmaceutical companies, and promoting the event
- Ensured that we had AGLC approval for Sundial Growers, a Cannabis company which will be attending the Trade Show this year

Diabetes Canada Fundraising

- I have been in contact with Teresa Trovato from Diabetes Canada since June 2019. She would like us to help fundraise money for D-Camps. D-Camps are for children with Type I Diabetes, and teaches them how to manage their condition, along with building friendships with other children. Our fundraising goal for this year is \$1000
 - We will be donating the money raised from the Pharm-Dent Game to Diabetes Canada
 - Other fundraisers TBD
- Diabetes Canada also hosted an MLA Reception, where I helped to recruit volunteers through posting on APSA Members' Corner
- We were also talking about holding a Diabetes Screening Clinic next semester as a way to raise more awareness. We are still working out details for the clinic.

APSA Office Hours

- Attended office hours every second Monday from 12:00 – 12:50PM

Council Meetings

- Attended bi-weekly council meetings on Mondays 5:00 – 6:00PM

Best Wishes,

Anna Jutla, SAF-Pharm Director
