

Shoppers Drug Mart Edson is looking for a full time pharmacist!

Some considerations:

- Full-time benefits with minimum 28 hours/week
- May be worked week on and week off
- Tax free scholarship if signed before April 2026
- 2 bed 2 bath condo accommodation available to negotiate into contract

Recent 4th-year student rotation experience: I just had my rotation at their store and it was great! The associate and pharmacy team are wonderful and quality care is their priority. **No clinical quotas or pressure to bill.** Many patients do not have a family physician so the pharmacy care clinic has been crucial in bridging the patient care gap in this community. Lots of opportunity to develop knowledge and skills in initial access prescribing, assessing minor ailments, managing chronic diseases, and travel health. The clinic is nearly fully booked daily. This pharmacy is an amazing opportunity to build a strong foundation in clinical knowledge and developing independent practice.

They're a really great site if you're looking to experience the potential of a pharmacy care clinic and want to maximize your scope of practice in the community.

2 year contract: [Apply here](#)
