

Semesterly Report:

Braden Kopytko

3<sup>rd</sup> Year Social Representative, Class of 2023

January 4<sup>th</sup>, 2022

Early in the year a Google form was sent out to determine preferences on various activities, concerns, barriers, and to gauge interest in various events

Continual support and collaboration with the VP Social as well as informing class of upcoming events and information regarding them.

Interest from class has remained low due to obligations, burnout, etc. In addition, COVID restrictions limit the ways in which we plan events. The following semester we will work along side the VP Social to gauge interest and hopefully plan some events and get a fair turnout. If restrictions limit us to online, there are still many activities that would be engaging as seen last academic year

Thus far there have been zero expenditures of the \$500 budget and leaves flexibility for the coming term.

Please reach out to me at [kopytko@ualberta.ca](mailto:kopytko@ualberta.ca) or the VP Social with any questions or if there are ideas or activities/events you would like to see this this final semester ask away:)
