

Semesterly Report

Dimitar Ourdev

1st Year Social Representative, Class 2024

March 24, 2021

This term was a lot slower than last semester on account of midterms spread over the course of February. Nevertheless, we did have the following activities:

1. Starting from the middle of February, we have been having a lunchtime hangout via google meets every Friday.
2. There have been three virtual game nights hosted by others in the class (as I don't have the technical expertise to pull them off). For my part, I have done my best to promote these events and invite people to these as well as APSA social events.

Overall, between 5-10 people have been showing up for these events, and they tend to be the same group of people. Thus far, \$0 of the \$500 budget has been spent.
